

RELUCENT PLASTICS SOLUTIONS IS YOUR STRATEGIC PARTNER IN
CLEAN ROOM INJECTION MOLDING AND CUSTOM ASSEMBLIES

FACILITIES:	32,000 sq feet with <u>2 CLASS 100,000</u> Clean Rooms & non-clean room molding
INJECTION MOLDING:	16 molding machines from <u>20 TONS to 330 TONS</u> Horizontal Injection <u>VERTICAL INSERT</u> Molding Complex <u>OVER MOLDING</u>
SECONDARY OPERATIONS:	CNC <u>MACHINING</u> Ultrasonic <u>WELDING</u> <u>PAD PRINTING</u> - single to multi-color <u>LASER ETCHING</u>
ASSEMBLY OPERATIONS:	Manual assembly to fully <u>AUTOMATED ASSEMBLY</u>
IN HOUSE TOOLING:	<u>IN HOUSE TOOL DESIGN AND MANUFACTURE.</u> Prototypes to High Precision Production molds
VALIDATION:	<u>IQ/OQ/PQ</u>
QUALITY:	<u>ISO13485</u> Certified - Quality lab and inspection equipment
PROCESSING:	Proprietary processes for <u>ADVANCED MATERIALS</u> including <u>PEEK</u> , <u>BIODEGRADABLE AND LONG FIBER POLYMERS</u>
ENGINEERING:	Solidworks, <u>PROGRAM MANAGEMENT</u> , <u>3D PRINTING</u> , DFM, <u>MOLDFLOW ANALYSIS</u>
LOCATION:	<u>ERIE, COLORADO</u> located just north of <u>DENVER</u> and east of <u>BOULDER</u>
OPERATIONS:	<u>IQMS ERP</u> , Supply Chain Management, U Requirements

RELUCENT PLASTICS SOLUTIONS was founded in 1993 as Magnum Plastics and was formed to service medical device startups. In 2018, Magnum became part of the Maruho family of companies and operates as a wholly owned subsidiary. Locations include Japan and multiple sites in the US. Relucnet Metals Solutions (Santa Rosa, CA) specializes in laser cutting, laser welding, laser marking, electropolishing, and passivation of Nitinol (NiTi), stainless steel (SS), cobalt-chrome (CoCr) and titanium (Ti). If you are looking for a new supplier in plastics or metals, Relucnet can be your single source solution. Contact RELUCENT today for more information: sales@relucentplastics.com
